### **INDEPENDENT AUDITORS' REPORT**

Board of County Road Commissioners of Huron County Bad Axe, Michigan 48413

We have audited the basic financial statements of the Huron County Road Commission, a component unit of Huron County, Michigan, as of December 31, 2006, and for the year then ended as listed in the table of contents. These financial statements are the responsibility of the Road Commission's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Huron County Road Commission as of December 31, 2006, and the results of its operations for the year then ended, in conformity with U.S. generally accepted accounting principles.

The management's discussion and analysis, budgetary comparison information and pension plan data on pages 2 through 6 and 20 through 23, are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements of the Huron County Road Commission. The statement on page 24 is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Road Commission of Huron County, Michigan. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

### Management's Discussion and Analysis

This section of the Huron County Road Commission's (the "Road Commission") annual financial report presents our discussion and analysis of the Road Commission's financial performance during the fiscal year that ended December 31, 2006. Please read this M.D. & A. in conjunction with the Road Commission's financial statements, which follow this section.

### Financial Highlights

- The Road commission's total net assets increased by approximately \$2.3 million
- During the year, restricted net assets increased by approximately \$273,000.
- Total Revenue sources for the year of \$13.4 million exceeded expenditures of \$11.1 million by \$2.3 million.
- \$7 million was invested in capital assets during the year.

### **Overview of the Financial Statements**

This annual report consists of four parts: management's discussion and analysis (this section), the basic financial statements, required supplemental information, and other supplementary information.

The financial statements also include notes that explain some of the information in the financial statements and provide more detail. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. In addition to these required elements, we have included a section with more detail regarding Road Fund balances.

### Financial Analysis of the Road Commission as a Whole

Net Assets

The Road Commission combined net assets increased during 2006 by approximately \$2.3 million, ending the year at \$65.8 million. Table 1 below shows the composition of the Road Commission's net assets at December 31, 2006 compared with December 31, 2005.

Table 1

	Governmental Activities			vities

Restricted		3,899		3,626
Total net assets	\$	65,894	\$	63,606

### **Changes in Net Assets**

The Michigan Transportation Fund (MTF) revenue is the result of a statutory formula that is structured to share various fuel taxes and license fees collected by the State of Michigan with cities, road commissions and the Michigan Department of Transportation. This revenue item is one of the primary sources of revenue for the Road Commission.

For 2006, MTF revenue remained flat compared to 2005 levels. However, consistent with past practice, the projected MTF for 2006 was a conservative figure. The final MTF revenue was approximately \$400,000 more than budgeted. Also, revenue from township activity increased \$1.1 million over the prior year. Trunkline Maintenance along with special projects funded by State and Federal dollars further increase revenue over budget amounts.

With regard to expenses there was no abnormal activity. Appropriate line item expenses increased in direct proportion to specific revenue increases.

The Road Commission's change in net assets was a combination of various revenue sources and expense categories as shown in Table 2.

Change in net assets	\$	2,288	\$	697	

### Capital Assets

The road Commission has approximately \$62.6 million in net capital assets at the end of the year due mainly to infrastructure improvements.

These infrastructure improvements during the year involved constructing and reconstructing roads, bridges and intersections. The Road Commission also contributed \$360,000 to work performed on the local road system. During the year, 112 miles of road improvements were made. This consists of 25 miles on the primary road system and 87 miles on the local road system.

Further infrastructure improvements included repair or rehabilitation of approximately 10 bridges. Design began or continued on four bridges for the township & primary system. A new bridge was constructed on the Sebewaing Road over the East Branch of the Pigeon River.

### The Year in Review and the 2006 Budget.

The early (January-March) winter of 2006 proved to be most unusual. The weather started out quite mild. Then it snowed extensively. After a very short period of time the weather turned warm and it rained. This warm/rainy condition continued for several weeks causing extensive damage to many roads but township gravel roads in particular. Maintenance activities such as grading and placement of new gravel had not occurred here during the months of January and February in recent memory. Therefore, early maintenance costs were extremely high. Fortunately, the late winter (November-December) was mild. There was little or no snow fighting activity late in the year. This resulted in maintenance cost savings which offset the costs incurred early on.

Our Townships had a very aggressive work program again in 2006. Township investment increased, approximately \$1.1 million over 2005 levels.

The road commission also continued the fine working relationship with MDOT specifically the Cass City T.S.C. Several safety projects were completed by road commission forces and funding entirely by federal and/or state sources. Some of these projects included eliminating a severe snow trap area and slope restoration on M-25 south of Harbor Beach, creating a center turn lane on M-25 near USA Schools, several asphalt projects and a continuation of the tree and brush removal program.

Traffic safety continued to be a prime focus in 2006. The vertical reflective sheeting program (lollipop) was expanded to the entire county. State Trunkline intersections were also included. The conversion to prismatic reflective film has begun for all new signs. This is the most reflective film available. During all recycling and asphalt projects, roads continue to be widened and radii are improved to help prevent edge cracking. Other traffic safety projects were conducted as well. This is significant since there are considerable increased costs involved in undertaking such an aggressive safety program.

### The Year in Review and the 2006 Budget (Continued)

Capital purchases in 2006 reflected progression to the long term goal of planned equipment obsolescence. Therefore, no large ticket items were necessary in 2006 with exception of new mowing tractors. The remaining purchases were relatively small items. It is important to note however, that several used vehicles were acquired in 2006. This practice proved financially beneficially in that previous equipment was replaced and updated with exactly the equipment necessary at a fraction of the cost of new. The road commission is extremely fortunate to have qualified technicians and fabricators who can modify equipment for specific purposes.

The 2007 budget is again conservative in nature. Asphalt costs remained flat compared to 2006 levels. Unfortunately, fuel and maintenance costs continue to increase. Capital purchases for 2007 will be limited as planned.

Townships appear to be on track to spend much the same as 2006. However, much of that work will be new asphalt or lime stone hauled by contractors. This issue continues to be a source of concern and topic of conversation.

### HURON COUNTY ROAD COMMISSION RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGE IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2006

Net change in fund balance - total governmental funds	\$ 303,296
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Capital outlay incurred in the current year  Depreciation	8,010,105 (6,146,262)
Repayment of installment purchase agreement principal is an expenditure in the governmental funds, but reduces the long-term liabilities in the statement	(-,,
of net assets.	151,380
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	
Increase in compensated absences	(30,333)

\$ 2,288,186

Change in net assets of governmental activities.

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of the Huron County Road Commission conform to U.S. generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Huron County Road Commission.

### The Reporting Entity

The Huron County Road Commission, which is established pursuant to the County Road Law (MCL 224.1), is governed by an appointed three member board of county road commissioners. The Road Commission may not issue debt or levy a tax without the approval of the county board of commissioners. If approval is granted, Road Commission taxes are levied under the taxing authority of the County, as approved by the County electors, and would be included as a part of the County total tax levy as well as reported in the County Road Fund. The Road Commission provides services to twenty-eight townships within Huron County and maintains over 1,750 miles of state, local and primary roads.

In accordance with the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 14 as amended by Statement No. 39, the Road Commission's Operating Fund is considered to be a component unit of Huron County for financial reporting purposes. The criteria established by GASB for determining the various governmental organizations to be included in the financial reporting entity's statements are discussed in the following paragraphs.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

The reasons cited for including the Huron County Road Commission as a component unit of Huron County (the primary government) include the appointment of the Road Commission's three member governing board, the ability to impose its will on the Road Commission and the potential for a financial benefit or burden on the County.

### Related Organizations

The Board of County Road Commissioners is also the appointed governing body of the Drains, Parks and Airport Funds of Huron County. These funds are also component units of Huron County, but are not included in these financial statements. The financial statements for the Drains, Parks and Airport Funds are issued in separate reports, which are available at the Huron County Road Commission office located at 417 S. Hanselman St., Bad Axe, Michigan.

### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements (i.e., statement of net assets and statement of activities) are reported using the economic resource measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grant and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized when it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

(Continued)

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Accounting Estimates

The process of preparing financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenditures. Such estimates primarily relate to inventories and unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

#### Property Taxes

During 2004, the voters of Huron County approved the renewal of a county-wide millage of one mil for five years for primary road resurfacing and reconstruction. Collection of this millage began December 1, 2004 and will continue until February, 2009. Management has established a policy of revenue recognition for property taxes as follows. The property tax is levied on each December 1st on the taxable valuation of property located in Huron County as of the preceding December 31st. These taxes have a final collection date of February 28, before they are added to the County's delinquent tax rolls. The delinquent real property taxes are purchased by the County's Revolving Tax Fund. These taxes are recorded as revenue for the year when current collections are completed, which is the fiscal year following the levy date of December 1.

#### Inventory

Inventory is stated at cost using the average cost method. Inventory items are charged to expenditures for road construction and equipment maintenance, repairs and operations as used.

#### Depreciation

Depreciation for road equipment and vehicles is computed using the sum-of-the-years digits method using the depreciation table in "Schedule C - Equipment Rental Rates" issued by the Michigan Department of Transportation. For all other capital assets, depreciation is computed on the straight-line method. Estimated useful lives are as follows:

Road equipment	5 - 8 years
Office and engineering equipment	8 years
Shop equipment	10 years
Yard and storage equipment	10 - 20 years
Buildings	25 - 50 years
Roads	5 - 30 years
Bridges	12 - 50 years

Infrastructure is reported retrospectively from 1980, except for right-of-ways, bridges, and traffic signals which are required to be reported despite the date of purchase.

Depletion is calculated as the amount of prorated cost or other indicated value assigned to the extracted portion of a natural resource (gravel).

The Uniform Accounting Procedures Manual for Michigan County Road Commissions provides for recording depreciation and depletion in the governmental fund statements as a charge to various expenditure accounts, and a credit to a depreciation/depletion credit account. Accordingly, the annual depreciation/depletion expenditures do not affect the available operating equity of the governmental fund statements.

### **NOTE 2 - BUDGET INFORMATION**

Annual budgets, and all amendments thereto, for the Governmental Funds are adopted by the Board to the line item level on a basis consistent with U.S. generally accepted accounting principles. All annual appropriations lapse at year end. The Road Commission does not utilize encumbrance accounting. (Continued)

### NOTE 2 - BUDGET INFORMATION (Continued)

### Excess of Expenditures Over Appropriations in Budgetary Funds

P.A. 621 of 1978, section 18(1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. During the year ended December 31, 2006, the Road Commission incurred expenditures in certain budgetary line items which were in excess of the amounts appropriated as follows:

<u>FUND</u>	-	AMENDED BUDGET	AMOUNT OF EXPENDITURES		 ARIANCE M BUDGET
Operating Fund:					
Local roads preservation	\$	4,000,000	\$	4,081,579	\$ 81,579
Primary structures routine maintenance	\$	3,000	\$	137,597	\$ 134,597
Local structures preservation	\$	80,000	\$	92,851	\$ 12,851
State trunkline maintenance	\$	750,000	\$	770,594	\$ 20,594
State trunkline non-maintenance	\$	1,050,000	\$	1,066,602	\$ 16,602
Equipment expense - direct	\$	1,500,000	\$	1,502,453	\$ 2,453
Administrative expense	\$	820,000	\$	823,565	\$ 3,565
Capital outlay	\$	600,000	\$	604,791	\$ 4,791
Debt service - principal	\$	150,000	\$	151,380	\$ 1,380

#### **NOTE 3 – CASH AND INVESTMENTS**

The Uniform Accounting Procedures Manual for Michigan County Road Commissions provides that the County Treasurer maintain the cash of the Road Commission. All Road Commission receipts are deposited with the Huron County Treasurer's Office, and in order to make disbursements, the Huron County Road Commission requests the County Treasurer to transfer the required funds to an imprest vendor or payroll checking account. Also, in order to invest cash, a request is made to the County Treasurer.

Deposits are carried at cost. Deposits of the Road Commission are at various banks in the name of the Huron County Treasurer. Michigan Compiled Laws, Section 129.91, authorize the County to deposit and invest in the accounts of Federally insured banks, credit unions and savings and loan associations with an office located in Michigan; bonds, securities and other direct obligations of the United States, or an agency or instrumentality of the United States; United States government or Federal agency obligation repurchase agreements; bankers' acceptance of United States banks; mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan; commercial paper rated within the two highest classifications, which mature not more than 270 days after the date of purchase; and investment pools organized under the surplus funds investment pool act; and obligations of the State of Michigan or its political subdivisions which are rated as investment grade.

Attorney General's Opinion No. 6168 states that public funds may not be deposited in financial institutions located in states other than Michigan. The Road Commission's deposits are in accordance with statutory authority. The Governmental Accounting Standards Board (GASB) Statement No. 3 as amended by Statement No. 40, risk disclosures for the Road Commission's cash deposits are as follows:

#### Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Road Commission's deposits may not be returned to it. The Road Commission does not have a deposit policy for custodial credit risk. At year end, the Road Commission had \$1,852,324 of its bank balance (checking accounts, savings accounts or certificates of deposit) of \$2,052,324 exposed to custodial credit risk as follows:

Uninsured and uncollateralized

\$ 1,852,324

### NOTE 4 - CAPITAL ASSETS

Capital assets activity for the current year was as follows:

	Balance January 1, <u>2006</u>	<u>Additions</u>	<u>Deletions</u>	Balance December 31, <u>2006</u>

### **NOTE 5 - CAPITAL LEASES**

The Road Commission has entered into lease agreements as the lessee for financing the purchase of road graders. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value is as follows:

	Cat <u>Grader</u>		Cat <u>Grader</u>		<u>Total</u>	
2007 2008	\$	133,093 -	\$	37,200 125,883	\$	170,293 125,883
Total minimum lease payments	<u></u>	133,093	<u>-</u>	163,083		296,176
Less: amount representing interest		4,268		7,897		12,165
Present value	\$	128,825	\$	155,186	\$	284,011

### NOTE 6 - DUE FROM/TO OTHER COMPONENT UNITS

Interfund receivable and payable balances at December 31, 2006 are as follows:

	DL	JE FROM	<u>DU</u>	E TO
Airport Fund	\$	38,990	\$	-
Parks Fund		464,619		-
Drains Fund		59,256		-
	<u>\$</u>	562,865	_\$	

The funds listed above are other component units of the County of Huron. The financial statements for these entities are issued under separate cover. All amounts are expected to be repaid in less than one year.

### NOTE 7 - LONG-TERM DEBT

The following is a summary of the outstanding debt of the Road Commission as of December 31, 2006:

	INTEREST <u>RATE</u>	MATURING <u>THROUGH</u>	 PRINCIPAL <u>OUTSTANDING</u>		
Drain assessment payable - Allen Drain Drain assessment payable - Shebeon Drain	Various Various	2011 2010	\$ 137,419 194,801		
TOTAL LONG-TERM DEBT			\$ 332,220		

### NOTE 7 – LONG-TERM DEBT (Continued)

The following is a summary of changes in long-term debt of the Road Commission for the year ended December 31, 2006:

•						BALANCE CEMBER 31,
2006 ADDITIONS REDUCTIONS \$ 499,866 \$ 30,333 \$ -			DUCTIONS		2006

	\$	137,419	\$	23,745	\$	194,801	\$	24,935

The amounts shown as future year interest requirements were determined using the interest rate in effect during 2006. These interest rates fluctuate on a yearly basis.

#### Vested Employee Benefits

Vacation is earned in varying amounts depending on the number of years of service for each employee. Vacation earned in one year is credited to employees on the anniversary of their hire date of the following year. An employee may carry over from year-to-year 120 hours of accumulated vacation.

After one year of service, sick leave is earned by each full-time employee at the rate of eight hours for every month of completed service. Unused sick leave may be accumulated to a total of 400 hours.

Vacation pay is paid at 100 percent upon retirement. Sick pay is paid at 100 percent when an employee retires, with payment not to exceed 270 hours. Fifty percent of sick leave earned and unused in excess of 270 hours is paid each January of the following year. Accumulated vacation and sick leave hours are recorded at 100 percent in the financial statements.

### **NOTE 8 - DEFERRED COMPENSATION**

The Road Commission offers all employees a deferred compensation plan created in accordance with Internal Revenue Code, Section 457. The assets of the plan are held in trust, (custodial account or annuity contract) as described in IRC Section 457 (g) for the exclusive benefit of the participants (employees) and their beneficiaries. The custodian thereof, for the exclusive benefit of the participants, holds the custodial account for the beneficiaries of this Section 457 plan, and the assets may not be diverted to any other use. The Administrators are agents of the employer for purposes of providing direction to the custodian of the custodial account from time to time for the investment of the funds held in the account, transfer of assets to or from the account and all other matters. In accordance with the provisions of GASB Statement 32, plan balances and activities are not reflected in the Road Commission's financial statements.

### NOTE 9 - EMPLOYEE RETIREMENT AND BENEFIT SYSTEMS

Defined Benefit Plan - Single Employer

### Plan Description

The Road Commission's defined benefit pension plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The plan is a participant in the Municipal Employees Retirement System of Michigan (MERS), which is an agent multiple-employer, state-wide, public employee pension plan that was created under Public Act 135 of 1945, and now operates under Public Act 220 of 1996, and the MERS Plan Document as revised. Pursuant to Act 220, on August 15, 1996, MERS became an independent public non-profit corporation which is an instrumentality of the participating municipalities and courts. MERS was established to provide retirement, survivor and disability benefits on a voluntary basis to the State of Michigan's local government employees. It provides centralized administration and investment of plan assets, but each employer unit is separately experience rated. MERS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for MERS. That report may be obtained by writing to MERS, 1134 Municipal Way, Lansing, MI 48917 or by calling 1-800-767-6377.

### Funding Policy

Employees are required to contribute either 3% of their annual earnings up to \$4,200 and 5% thereafter, or a flat 4.7% to the System based on the division in which the employee is a member. The Road Commission is required to contribute amounts necessary to fund the System using sound actuarial methods; the rates for 2006 were 2.60% for union employees, 18.80% for non-union employees and 23.14% for the manager.

#### Annual Pension Cost

For 2006, the Road Commission made actual contributions of \$253,482 which were made based on the payroll paid rather than the estimated payroll used in the actuarial valuation. The required contribution was determined as part of the December 31, 2004 actuarial valuation using the entry age normal cost method. The actuarial assumptions included (a) an investment yield rate of 8%, (b) projected merit and longevity wage increases ranging from 4.5% to 12.9% per year, with a projected annual payroll increase of 4.5%, (c) a mortality table projecting the number of members who will die before retirement and the duration of benefit payments after retirement, (d) assumed retirement rates projecting when members will retire and commence receiving retirement benefits, and (e) a set of withdrawal and disability rates to estimate the number of members who will leave the work force before retirement. The Road Commission's unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis.

### NOTE 9 - EMPLOYEE RETIREMENT AND BENEFIT SYSTEMS (Continued)

### Three-Year Trend Information

	Α	NNUAL	PERCENTAGE	N	ΞΤ
YEAR	RE	QUIRED	OF ARC	PEN:	SION
ENDING	CONTRI	BUTION* (ARC)	CONTRIBUTED	OBLIG	<u>ATION</u>
12/31/2004	\$	162,144	100%	\$	
12/31/2005	\$	179,532	100%	\$	-
12/31/2006	\$	250,548	100%	\$	-

<sup>\*</sup> Based on valuation payroll. Actual contributions will be based on actual payroll and will be different from the above amounts (usually higher).

### Postemployment Benefits

In addition to pension benefits, the Road Commission provides the following benefits to its retired employees:

### Life Insurance

The Road Commission pays the premiums for a group life insurance policy in the amount of \$3,000 to \$15,000 for each retired employee. For the year ended December 31, 2006, the Road Commission paid \$1,899 in life insurance premiums on behalf of 33 retired employees. During 2002, the Road Commission elected to drop commercial life insurance policies for the retired employees with \$1,000 of coverage. Instead they have opted to self-insure the lives of these 11 retired employees. During the year ended December 31, 2006 there were no claims paid under this self-insurance policy, and 11 retirees remain under this system.

#### Health Insurance

The Road Commission also provides optional health insurance through Blue Cross & Blue Shield to its retired employees depending on their age. The Board pays the premiums for each employee that retires prior to age 65 for a maximum of three years, or until they reach age 65. Those employees who retire or continue coverage after age 65 may obtain coverage through the Road Commission, but are responsible for the full cost of all premiums. For the year ended December 31, 2006, premiums paid by the Road Commission for 5 retired employees were \$40,753, while premiums paid by retired employees totaled \$227,365.

All of the post-employment benefits provided are included in agreements between the Board and employee groups, with all required Board premiums being funded on a pay-as-you-go basis.

### **NOTE 10 - CONTINGENT LIABILITIES**

Various suits involving personal injury claims have been filed or are pending against the Road Commission. The only direct financial responsibility that the Road Commission has concerning the above claims is the payment of a \$1,000 deductible, per occurrence, to the Michigan County Road Commission Self-Insurance Pool. The Road Commission is afforded coverage through the Pool with more than sufficient limits to cover any settlement or adverse judgment.

In accordance with contracts negotiated with the various employee groups of the Road Commission, individual employees have a vested right upon termination of employment to receive payment for unused sick leave and vacation under formulas and conditions specified in the contracts. The dollar amount of these vested rights which has been accrued on the financial statements amounted to \$530,199 for sick leave and vacation pay at December 31, 2006.

### **NOTE 11 - RISK MANAGEMENT**

The Road Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Road Commission joined together with other Road Commissions to form the Michigan County Road Commission Self-Insurance Pool, a public entity risk pool currently operating as a common risk management and insurance program which charges an annual premium to its members for insurance coverage. The pool is self-sustaining through member premiums and provides reinsurance through commercial companies for claims in excess of \$10 million for each insured event. The MCRCSIP provides general liability, casualty and fleet coverage to the Road Commission, and acts as an agent for the Road Commission by purchasing commercial insurance for underground storage tank liability.

The Road Commission is also a member of the Michigan County Road Association Self-Insurance Fund, a public entity risk pool providing risk management for worker's compensation. The Road Commission also continues to carry commercial insurance for employee health coverage.

At December 31, 2006, there were no claims that exceeded insurance coverage. The Road Commission had no significant reduction in insurance coverage from the previous year.

### NOTE 12 - FEDERAL FINANCIAL ASSISTANCE

The Michigan Department of Transportation (MDOT) acts as the agent of the Federal Highway Administration (FHWA) in the administration of Federal funds provided for the improvement of road systems of Local Public Agencies (LPA) located in Michigan. Although these funds are provided for the improvement of the LPA's road systems, MDOT, as the agent of FHWA, is responsible for controlling receipts and disbursements related to the funds. In this capacity, MDOT also awards construction contracts and, in some instances, contracts for other services or performs related work with MDOT forces. The LPA receives interim and final accountings of project receipts and disbursements from MDOT. The interim and final accountings are reflected in the LPA's accounting records. Federal compliance testing of these funds will be included in the audit of MDOT.

During the year ended December 31, 2006, the Huron County Road Commission, as an LPA, received a benefit of \$954,380 of federal funds through MDOT for the improvement of road systems and bridges.

Also, during 2006 the Huron County Road Commission received \$25,154 of federal funds on a reimbursement basis for force account work performed to install reflective panels at intersections throughout the county.
